
Summarize the passage in 2 -3 sentences.

Passage:

The Industrial Revolution, which began in the 18th century, was a period of great change in Europe. It marked the transition from agrarian economies to industrialized and urban societies. This era saw significant advancements in technology, manufacturing, and transportation, leading to increased productivity and economic growth. However, it also brought about challenges such as urban overcrowding, poor working conditions, and environmental pollution.

Paraphrase the sentence.

Original Sentence:

Global warming, driven by human activities such as deforestation and the burning of fossil fuels, is causing significant changes in the Earth's climate.

Summarizing and Paraphrasing Combined

Text:

Renewable energy sources, such as wind and solar power, are becoming increasingly popular as alternatives to fossil fuels. These energy sources are sustainable and environmentally friendly, reducing the carbon footprint and helping to combat climate change. However, the initial costs of setting up renewable energy infrastructure can be high, and there are challenges related to energy storage and grid integration.

1. Write a summary of the text.
2. Paraphrase the following key point:
Renewable energy sources are sustainable and environmentally friendly, reducing the carbon footprint.
